

**Client:** VBB Verkehrsverbund Berlin-Brandenburg GmbH

**Location:** Berlin, Potsdam

**Time frame:** 12/2019 – 02/2020

**Name of project:** Support in CEF-T-2019-MAP-General application  
for EU co-funding  
'i2030 Rail Expansion in Berlin and Brandenburg: Western Gateway'

**Main project features:**

- Analysis of the call application's formal and content requirements and advice to the applicants
- Coordination of the applicants and involved stakeholders regarding input of application's content as well as necessary formal confirmations and declarations signed by authorised representatives of the transport ministries of the states of Berlin and Brandenburg
- Coordination with the desk officer at Federal Ministry for Transport and Digital Infrastructure (BMVI) to ensure endorsement of application
- Translation from German into English of draft content parts provided by Deutsche Bahn
- Coordination and moderation of workshops to discuss and finalise application content (text blocks, budget calculation and milestone plan) with applicants and stakeholders
- Technical handling of the application's content and documents within the TENtec Information System on behalf of the applicants

**Subjects:** Rail infrastructure, EU grant application
